Important Notice

May 7, 2003

Dear Vendor:

London Drugs has communicated to you, our valued partner, throughout 2002, our need for your participation in ECCnet. To date, your company has yet to commit to our requests. Please contact your London Drugs Buyer to inform them as to when your company will be participating in ECCnet.

The standard terms and conditions of trade of London Drugs have changed, effective April 1, 2003, to include **an amendment requesting that all product listing information** be made available through ECCnet, Canada's National Product Registry.

Please be aware that, effective May 1, 2003, London Drugs needs and wants all new product listings or product presentations to be loaded into ECCnet prior to our listing of your product(s).

London Drugs also encourages you to load product listing information for all private label products into ECCnet. Please contact your buyer or category manager for further clarification on our private label policy.

London Drugs and ECCnet would like to help you avoid any listing delays. Please contact ECCnet at **info@eccnet.org** or **1 800 567-7084** to become ECCnet Certified before May 1, 2003.

As a valued supplier to London Drugs, we thank you in advance for your total cooperation.

London Drugs Limited
